Intertec Brands

M RED MAGNETICS

Our strengths are design-in and development of customized electromagnets and solenoids.

Red Magnetics also offers a wide range of standard electromagnets and solenoids for numerous applications. We provide consulting, service and production from a strong single source.

F RED FREQUENCY

Red Frequency specializes in the manufacturing of frequency control products for a variety of applications.

We can replace all common crystals and crystal oscillators. Benefit from our competitive pricing and delivery times.
